CA Sanjay Bakliwal

Founder Chairman

“Your beliefs become your thoughts, your thoughts become your words, your words become your actions, your actions become your habits, your habits become your values, and your values become your destiny.”

—Mahatma Gandhi.

With a vision of imparting value based education and creating future corporate leaders, we established Bakliwal Foundation Group of Colleges, in the year 2010. Personal ambition in tune with social vision makes an entrepreneur reach out beyond the horizon. Work becomes pleasure. Failures are looked upon as inevitable stepping stones towards growth and success.

We believe that Education must evolve to keep pace with mighty changes occurring today in business, industry and society. Professionals must develop attributes & knowledge beyond traditional constraints of the classroom. Education must be designed to accommodate current trends & future needs. We must enhance the flexibility of the curriculum. Professional education must create more connections & stronger partnership with the global society in which we are embedded. We must examine the relevance of the curriculum and strive for the fulfillment of society, institution and professional missions.

Our goal is to articulate the role of education in the early part of the 21st century and to establish design specifications that will enable Bakliwal Foundation Group of Colleges to be a leader in shaping the future of education. As such we have an obligation to address the full range of higher education, graduation, post-graduation, and service to the community. Indeed these elements must be totally integrated if we are to be effective in the pursuit of our mission.

With the aim to offer a truly rewarding experience to our students, our programs are superior to standard programs as it also develops certain entrepreneurial qualities in the participants. These help to remove aversion to calculated risk taking imbued with ambition beyond normal career growth.

With changing role of leaders amidst various disruptions, we firmly believe that the future lies with individuals with strong Emotional Quotient, Social Quotient and Intellectual Quotient; we strive for inculcating these qualities in our students.

In my capacity as Founder and Chairman, Bakliwal Foundation, I welcome you and assure that each individual would get equal opportunity to be a leader in long run.

EDUCATION POLICY STATEMENTS

We, the Bakliwal Foundation College of Arts, Commerce & Science, Vashi consider education integral to the formation of the human person for the fulfilment of his/her individual and social responsibilities.

Our educational aims at forming leaders who are intellectually competent, spiritually mature, morally upright, psychologically integrated, physically healthy and socially acceptable; who will champion the cause of justice, love, truth and peace and who are ever open to further growth.

The secret of the success of our educational institutions is a community of teachers who are committed to their vocation, professionally competent, morally upright, just and humane in dealings, and who grow in the true vision of education.

We aspire towards creating a just and humane society where dignity of the human person is respected, where unjust social structures are challenged, where our cultural heritage of ahimsa, religious harmony and national integration is upheld, and where the poor and the marginalised are specially taken care of.

We have to reach out to the families, primarily of the students, to assist them in their needs, to share in their joys and sorrows, and to help them experience love and freedom so that the students realize that our educational institutions are an extension of their homes.

Our institutions are open to all students irrespective of caste and creed; they are accepted and cherished as they are and are helped to grow in their cultural, social and religious traditions. As they are privileged to be in our institutions, they will also have the right to get acquainted with their own culture.

Our institutions are open to society at large by making their resources available for education and non-formal teaching.

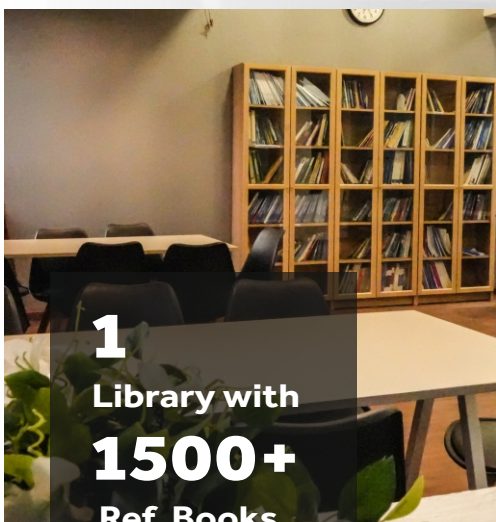

For the realization of this BFCACS goal of education, we expect students, parents and teachers to share this vision and to cooperate with us whole-heartedly.
